Record No.: PLN-12987-CUP
Harris Area

A Conditional Use Permit for 11,762 square feet of existing light deprivation and full sun outdoor commercial cannabis cultivation. Approximately 252,000 gallons per year (21.4 gallons per sf) is required for irrigation needs. Water is sourced from three onsite rainwater catchment ponds and stored in the ponds and hard tank storage for a total of 605,400 gallons of water storage. Processing activities including drying, curing, and trimming occur onsite within a 968 square foot building. Power is provided through a mix of solar and generator use.

Recommendation: Continue the project to a date uncertain.
