Hi Devin,

Please see the comments below regarding the above referenced projects.

Project Number: PLN-12170-ZCC & PLN-12166-CUP

Project Name: Happy Valley Farms

APN(s): 210-051-064-000 & 210-051-081-000

Project Description PLN-12170-ZCC:

A Zoning Clearance Certificate for 2,500 square feet of existing, outdoor, commercial cannabis cultivation. Water for irrigation is sourced from a groundwater well on an adjacent parcel (APN 210-051-062). Water from the well is stored in hard tanks totaling approximately 162,000-gallons, which is shared between this and Apps 12166 on adjacent parcel. Additional water tanks totaling 35,000-gal. will be added with approved grant funding. Annual water use is estimated to be approximately 20,000-gal. or less. Drying occurs in an existing structure on adjacent parcel under common ownership (Apps 12166), with trimming and packaging occurring offsite. The applicant states that 3-5 employees are needed for operations. Electricity is sourced from wind and solar power, with generators serving as emergency backup. Grant funding has been secured to increase solar capacity and provide 80% power from renewable sources by 01/01/2026.

Project Description PLN-12166-CUP:

The applicant is seeking a Conditional Use Permit for 12,500 square feet of outdoor commercial cannabis cultivation utilizing light deprivation techniques. Two harvests are anticipated annually. Projected annual water usage is 120,000-gallons. Water will be sourced from a groundwater well, and is stored in 162,000-gal. of storage which is shared between this and adjacent project (Apps 12170). Power will be sourced from solar and a wind turbine, with generators serving as backup in times of emergency and low insolation; grant funding has been secured to increase both renewable energy capacity and total water storage. 3-5 employees are anticipated for the project. There is a 1,220 SF ancillary nursery on site.

CDFW COMMENTS:

Thank you for referring this application to the California Department of Fish and Wildlife

(CDFW) for review and comment.

On August 3, 2023, CDFW staff conducted a site inspection at the subject property on Assessor' Parcel Numbers (APNs) 210-051-064-000 & 210-051-081-000. During the site visit staff walked the property to observe current and historic cultivation activities. The following comments are intended to assist the Lead Agency in making informed decisions in the planning process. The following comments shall supersede prior comments submitted by CDFW regarding PLN-12170-ZCC & PLN-12166-CUP. CDFW requests that all comments are incorporated in the final Humboldt County Staff Report.

- This site was in compliance with the Lake and Streambed Alteration Agreement (LSA: 1600-2017-0395-0000-R1). The LSA is being transferred to a new operator.
- The permittee has resolved a previous Notice of Violation issued to the Permittee.
- Water sourcing for this project is supplied by a bedrock fracture well. In drought years, CDFW has observed wells adjacent to this project failing to yield water (APN's 210-250-008 and 210-250-010). CDFW recommends that the applicant store no less than 100,000 gallons of water on site to be used if the groundwater well does not produce for a full cultivation season.

Thank you for the opportunity to comment on this project.
